CORE COMPETENCY

Boeing is the world's largest aerospace company and leading manufacturer of commercial jetliners, defense, space and security systems, and service provider of aftermarket support. As America's biggest manufacturing exporter, the company supports airlines and U.S. and allied government customers in more than 150 countries. Boeing products and tailored services include commercial and military aircraft, satellites, weapons, electronic and defense systems, launch systems, advanced information and communication systems, and performance-based logistics and training.

KEY PROJECTS OR PRODUCTS

Defense, Space & Security

Defense, Space & Security (BDS) is a diversified, global organization providing leading solutions for the design, production, modification, service and support of commercial derivatives, military rotorcraft, satellites, human space exploration and autonomous systems.

Commercial Airplanes

Boeing has been the premier manufacturer of commercial jetliners for decades. Today, the company manufactures the 737, 747, 767, 777 and 787 families of airplanes and the Boeing Business Jet range.

Boeing Global Services

As the leading manufacturer for commercial and defense platforms, Boeing is positioned to provide unparalleled aftermarket support for mixed fleets worldwide. Boeing Global Services delivers innovative, comprehensive and cost-competitive service solutions for commercial, defense and space customers, regardless of the equipment's original manufacturer.
