CORE COMPETANCY

Forgings for the aerospace and defense industries. Scot Forge carries a variety of aircraft quality ferrous and nonferrous materials, including AMS 2301, AMS 2304 and Inconel 718. No matter what forged part you need for your aerospace application, such as aerospace fittings forgings, Scot Forge has you covered.

KEY POINTS OF CONTACT

Jason Artner – Jartner@scotforge.com

Matt Davis – Mdavis@scotforge.com

Devon Dupuy - DDupuy@scotforge.com

KEY PROJECTS OR PRODUCTS

- **Rockets, Structural:** Adapter structures, bulkheads, payload adapters, separation rings, barrels, cones, ESPA rings, y-rings, rideshare structures, 5.5m rings, 8.4m ring segments
- **Rockets, Propulsion:** Closures, chamber forgings, liners, domes, nozzles, thrust cones, fuel sumps
- **Capsule / ISS:** Bulkheads, tunnels, LIDS adapters, deck forgings, docking adapters
- **Commercial Spacecraft:** Flanges, valves, injector plates, case forgings, interfaces, liners, thrust cones
- **Missiles:** Cylinders, case forgings, frustums, inter-stage forgings, nozzles, shells, shrouds, cones, tubes
- **Aircraft, Fixed-Wing:** Inlet attach rings, engine attach rings, adapters, bellmouth adapters, brake calipers, turbine cases, column structures, pylons, inlet case assemblies, propeller hubs, inlet adapters, landing gear axles, landing gear cylinders, landing gear drag braces, transmission ring gears
- **Aircraft, Rotorcraft:** Planetary gear forgings, swashplates, transmission forgings, transmission ring gears
