

CORE COMPETANCY

- Astronautics and Propulsion Component Tests
- Space Simulation/Thermal Vacuum Cycling
- Extreme Environmental Testing, Including Pyroshock, High Intensity Vibration, and Launch Level Acoustics
- Cryogenic Component Tests, LH2, LOX, LN2, LNG
- High Pressure, High Flow Pneumatic Tests at Low, Ambient and High Temperatures, GHe, GN2, GH2, GOX, and GNG
- Rocket Thrust Stand and Exhaust Duct Testing
- Maintain Clean Protocol during tests
- Precision Cleaning
- Advanced EMI/EMC Testing
- Class 100,000 Single and Dual Shaker Vibration Test Areas at Cryogenic, Ambient and High Temperatures
- CT Scanning in Conjunction with Advanced Digital X-Ray
- Firearm Safety & Device Testing
- Helmet Impact Testing

KEY POINTS OF CONTACT

Victor Alfano, Senior Director, Strategic Programs –

victor.Alfano@nts.com

Sal Detruit, Strategic Sales Director of Defense –

sal.detruit@nts.com

Kyle North, Engineering Manager – kyle.north@nts.com
